It's a cheap excitement that the kids love ☺ If I browse Amazon for books the other day (because that's what I do, I had a slight obsession) I noticed there was a good choice of trash truck books that we didn't read. When one search led to another and next thing you know I'm looking for Naastrak birthday party supplies... while the children's b-days are already over, there are some pretty fun Pinterest ideas on the subject! Anyway, in case of your kids like trash day as me do, I thought I'll put together this handy list of books, toys, and more resources for you to consider. To browse fun! (and let me know in the comments if I missed anything!) We still love board books. They are fast, simple reading and the books last longer than paperbacks! This is a good choice for small trash truck lovers. A short book that gives details about the different types of trucks. I like that they actually look like the trucks we pick up trash! A small size book packed with good information on what trash trucks do! Where does the garbage go? A super useful book that takes children by what happens after trash (and other recyclables) is picked up from the curb. Granny drove the Garbage Truck This book is more stupid than it is, but definitely a fun read! A modern classic! My sons first heard of this book by the Netflix narrative of the book. Love that it goes through the alphabet of trash! So book features a female sanitation worker! Smash, Mash, Crash, there goes the trash! Many audio effects and rhythm text make this book a fun choice for read-aloud! The recurring and rhythmic text makes this book a great choice for early literacy! The kids will quickly catch on the refrain I pour it in, I break it down, I drive to the trashy town and you can even hear them repeat it trash day on your own street ☺ The art in this book is what makes it stand out from the rest. There is plenty of detail to examine and the text also features a simple recurring refrain (Trash trucks! Trash trucks! Trash trucks!) I like the simplicity of this recycled truck from Melissa and Doug. No mechanical parts of batteries to change. We just love playing with playing dough (see our favorite homemade recipe and try it out!) so this play-doh truck would be a hit in our home! More... I heart trash trucks. I like the simplicity of this statement shirt! With a trash truck party? These cookie cutters would make a big snack for good bags! I see this trash can have novelties about 20 activity ideas through my head! If you enjoy doing activities based on books, it can be for you! They will also be fun Favors! Please make it look day every day with these mighty machines DVD! Don't go away yet! They are absolutely cute! The children are usually so excited to see the sanitation workers and they will often stop saying to the children before proceeding on their route. This is what inspired this quick list – 4 Photo books about refuse trucks. Personally, I'm fascinated with the way things have changed. They used to have (usually) men pulling your trash can to make the truck and empty it. Now let's trucks through with an arm extension that picks up the tin and dumps it straight into the truck. The technology is fascinating to me! Tomorrow I plan to post a few titles on recycling as its part of many people's trash picks. Although I know because of the current political climate, I know there are a few places that no longer pick up residents' recyclables. Small town and rural America don't have enough homes to guarantee companies that pick up recycling because it can be so expensive to care for. This is a real shame because there is not always a ton that an individual can do, but recycling is usually easy. Garbage Trucks by Terri DeGezelle Michels! Stink! by Kate & Jim McMullanSmash! Mash! Bath time is also a great time to read stories if your little one is contained and even if they play in the bathtub, you can read at the same time. Page 3 I such a great week on vacation! Overall, I've learned that I can probably be a lot of easy. I am A week dog sits, reading, and working on my blog and honestly, I thought I'll get bored. And I definitely don't! In fact, I could probably have spent a few more days in Florida and was perfectly happy! I wanted to share the follow-up to my blog move and if you didn't get a chance, look at my update! I didn't do as much on my blog as I wanted, but I made some progress. There were a few things that had been sitting on my to-do list for a very long time that I was finally tackled. About me if you get the chance today, check out my work-in progress About my page. I finally started renovated the content and I'm really pleased with what it looks like now. There are still a few things I'd like to integrate into the page, but for now it seems much better than it has done before. Storytime Themes I've also updated many my menu pages, including all the storytime themes. First, I combined all three pages (storytimes, yoga, and sensory-friendly) in a comprehensive list of storytime themes (and theme-less) programs. I went through all the posts on my blog to ensure they're all listed on the menu page. My storytime themes are still some of my most popular content, so I'm glad I've found time to work on them liquidation. Booklists The other part of the blog I updated was all my book lists. I have created so many theme booklists for holidays, awareness months and just common themes. But they are not helpful unless they are easily accessible to my readers. I also work my way through old posts, updating graphics, making sure they have SEO it's functional, and in general just trying to clean things up. When I look at this blogging retreat follow-up, I'm happy with all the work I could achieve! Do you have that person in your life that no matter how long you haven't seen each other, you just dive back to share? I'm lucky to have friends like this, literally spread throughout the country. While on vacation, I spent time with one of them. And even though we had a short time together, it was so great to see each other and catch up in person. I celebrate our friendship with 12 Titles on Friendship! I met this friend in graduate school – we actually agreed to be roommates before we ever met in real life! And even before our apartment was ready to move in, we stayed in a hotel room for a few days. Since grad school and moving apart, I have the chance to be at her wedding (after another one of my great friends) and I get to love on all three of their amazing children. That said, here's my ode to friendship in a booklist from photobooks to young adult titles. 12 Titles on Friendship Be a Friend by Salina YoonHooray for Hat! by Brian WonTo the Sea by Cale AtkinsonBink & Gollie by Kate DiCamilloThe Cookie Fiasco by Dan SantatMy Friend is sad by Mo & Mouse by Laurel SnyderFox & Chick: The Party and other stories by Sergio RuzzierJuana and Lucas by Juana Medina11 Birthdays by Wendy Wendy Cardboard Kingdom by Chad SellSame Me a seat by Sarah Weeks and Gita VaradarajanEleanor & Park by Rainbow RowellFrom Twinkle, with Love by Sandhya MenonLeah on the Offbeat by Becky Albertalli if you are looking for even more picture books about friendship, watch the Happy You, Happy Family blog post about friendship books.
